

MINIMAL LEVELS OF MODIFICATIONS FOR COMPETITION.....

Hot Import Nights would first like to thank you for being interested in participating in our events. We require a vehicle to be in complete display form. The exterior must be fully painted and all interior panels must be in place. Vehicles modified for race and / or motorsport applications may qualify to enter into competition provided the exterior of the vehicle still meets the display requirements.

We require a minimum of five modifications to showcase your vehicle.

The only mandatory modification is that your ride must have a set of aftermarket wheels and suspension. Other modifications we would like to see but not limited to include lip kits / body kits, lowered suspension, and aftermarket lighting.

There are a few situations to look out for such as if your vehicle is in primer or has noticeable body damage, even with the minimum requirements; you will not be accepted for showcasing. If you are unsure about the current state of your vehicle please send honest pictures to cars@hinevents.com to see if you will qualify.

Vehicles whose only modifications are full body wraps with their own branding will not be accepted and will be turned away. HIN / Nightshift is an automotive event with the highest commitment towards competition. Companies will not be allowed to gorilla market our attendees. Vehicle Graphics and Decals must be done so in a tasteful manner in the spirit of competition. Sponsor decals and graphics are accepted and encouraged if done so in a competitive & tasteful nature.

If you would have any questions regarding this please email automotive@hinevents.com.

Again thank you for your interest and hope to see you on the 2008 HIN / Nightshift tour!

Regards,

Thanh Phan
